Tolerance, Intolerance and Respect: Hard to Accept? (Palgrave Politics of Identity and Citizenship Series)

With the ethnic, cultural and religious diversity that is a feature of European societies today, pluralism is experienced in new and challenging ways. In many places, an urban cosmopolitan mix sits side by side with group-based expressions of faith and culture. The debate about the types of 'acceptance' that these situations require tend to follow new patterns. Increasing openness and respect for some may rest upon a reinforced intolerance towards others. This complicates and challenges our understanding of what it means for societies to be accepting, tolerant or respectful of cultural diversity in its various forms. This volume seeks to meet this challenge with perspectives that consider new dynamics towards tolerance, intolerance and respect.
