## Teachings from the Worldly Philosophy Robert L. Heilbroner

Selections from great writings on economics, annotated and introduced by a distinguished economist and teacher.

Author of *The Worldly Philosophers*, a 3-million-copy seller, Robert Heilbroner offers here a compendium of readings from the "worldly philosophers" themselves. The selections range from the earliest economic thought to such towering volumes as Adam Smith's *The Wealth of Nations*, Thomas Malthus's *Essay on the Principle of Population*, David Ricardo's *Principles of Political Economy*, and John Maynard Keynes's *The General Theory of Employment, Interest, and Money*. Acting as "a docent, not merely an editor," he takes the reader through the core arguments with "brilliantly clear commentary" (*New York Times Book Review*).
