## The Gauntlet: A Challenge to the Myth of Progress Arthur Penty

Subtitled "A Challenge to the Myth of Progress," this collection includes selections from *Old Worlds for New*, *Post-Industrialism*, *Towards a Christian Sociology*, and *Means and Ends*. This first-ever anthology of Penty's works presents a compelling vision both of what's wrong with the world and of what kind of socio-economic order would help to make it right. The writings in this volume provide a sampling of Penty's thorough and persuasive critique of the myths that dominate modern economic and social thought. They also outline his intellectual and practical program for the restoration of such essentials in economic life as the dignity of labor, justice in pricing, equity in property distribution, quality in craftsmanship, preservation of rural culture, and, above all, the recognition of spiritual truth as the foundation of all real economic order.
