Aplicações web real-time com Node.js (Portuguese Edition) Caio Ribeiro Pereira
Node.js é uma poderosa plataforma. Ele permite escrever aplicações JavaScript no server-side, tirando proveito da sintaxe e familiaridade da linguagem para escrever aplicações web escaláveis.

Como o Node.js usa um modelo orientado a eventos, focado em I/O não-bloqueante, desenvolver nele pode ser diferente para quem está acostumado às aplicações web tradicionais. Nesse livro, Caio Ribeiro Pereira quebra essa enorme barreira, mostrando claramente essa mudança de paradigma, além de focar em tópicos importantes, as APIs principais e frameworks como o Express e o Socket.IO.
