Alpine Americas: An Odyssey Along the Crest of Two Continents

Olaf Soot, Don Mellor

Alpine Americas: An Odyssey Along the Crest of Two Continents Olaf Soot, Don Mellor

Alpine Americas is a mountaineer's tour of the 10,000 mile range of peaks from the Arctic to Patagonia. The book combines stunning mountain photography with elegant text that explores the places from all perspectives -- geologic, historical, philosophical -- as it takes readers up the cold wind-swept ridges of Denali or down into the caldron of a smoking Mexican volcano. Each mountain grouping is a different chapter. Each chapter focuses on a single element of what the place means to us. Brooks range in the Arctic, it's all about tranquility and the reassurance of seasonal patterns. Way to the South, in Patagonia and Tierra del Fuego, it's the chaos and conflict of the natural elements -- angry winds and big weather -- as the jagged landscape thrusts upward from the cold salt sea. Don Mellor's inspirational words and Olaf Soot's magical photographs, Alpine Americas is the celebration of the western world's majestic high places.
