Laboratory Handbook on Biochemistry S. Sathish Kumar , T. Panneer Selvam, K. Shanmugam

This systematically designed laboratory handbook elucidates a number of techniques which help the students carry out various experiments in the field of biochemistry. The experimental protocols described in the handbook have been standardized and performed in the authors' own laboratory.

This handbook is intended for the undergraduate and postgraduate students of life sciences (biochemistry, microbiology, biotechnology, plant biotechnology, animal biotechnology, etc.) and engineering (biotechnology, biomedical, etc.) for their laboratory courses. Researchers have to refer to many journals and books to find the right procedure for their experiments. This handbook is an attempt to provide students with the often used methods in a handy format, including explanations of principles, procedures and interpretations of results of the experiments.
