Alan Turing's Electronic Brain: The Struggle to Build the ACE, the World's Fastest Computer *others*
The mathematical genius Alan Turing, now well known for his crucial wartime role in breaking the ENIGMA code, was the first to conceive of the fundamental principle of the modern computer—the idea of controlling a computing machine's operations by means of a program of coded instructions, stored in the machine's 'memory'. In 1945 Turing drew up his revolutionary design for an electronic computing machine—his Automatic Computing Engine ('ACE'). A pilot model of the ACE ran its first program in 1950 and the production version, the 'DEUCE', went on to become a cornerstone of the fledgling British computer industry. The first 'personal' computer was based on Turing's ACE.

Alan Turing's Automatic Computing Engine describes Turing's struggle to build the modern computer. The first detailed history of Turing's contributions to computer science, this text is essential reading for anyone interested in the history of the computer and the history of mathematics. It contains first hand accounts by Turing and by the pioneers of computing who worked with him. As well as relating the story of the invention of the computer, the book clearly describes the hardware and software of the ACE—including the very first computer programs. The book is intended to be accessible to everyone with an interest in computing, and contains numerous diagrams and illustrations as well as original photographs.

The book contains chapters describing Turing's path-breaking research in the fields of Artificial Intelligence (AI) and Artificial Life (A-Life). The book has an extensive system of hyperlinks to The Turing Archive for the History of Computing, an on-line library of digital facsimiles of typewritten documents by Turing and the other scientists who pioneered the electronic computer.

From reader reviews:

Carl Adams:

What do you concentrate on book? It is just for students as they are still students or the item for all people in the world, exactly what the best subject for that? Only you can be answered for that concern above. Every person has distinct personality and hobby per other. Don't to be pressured someone or something that they don't want do that. You must know how great in addition to important the book Alan Turing's Electronic Brain: The Struggle to Build the ACE, the World's Fastest Computer. All type of book are you able to see on many resources. You can look for the internet sources or other social media.

Melissa Kim:

As people who live in the modest era should be upgrade about what going on or information even knowledge to make these individuals keep up with the era that is always change and advance. Some of you maybe will probably update themselves by looking at books. It is a good choice for you personally but the problems coming to you actually is you don't know which one you should start with. This Alan Turing's Electronic Brain: The Struggle to Build the ACE, the World's Fastest Computer is our recommendation to make you keep up with the world. Why, as this book serves what you want and want in this era.

Darrel Mason:

The actual book Alan Turing's Electronic Brain: The Struggle to Build the ACE, the World's Fastest Computer will bring one to the new experience of reading some sort of book. The author style to describe the idea is very unique. In case you try to find new book to read, this book very appropriate to you. The book Alan Turing's Electronic Brain: The Struggle to Build the ACE, the World's Fastest Computer is much recommended to you to study. You can also get the e-book through the official web site, so you can quickly to read the book.

Sean Martinez:

Spent a free time for you to be fun activity to try and do! A lot of people spent their leisure time with their family, or their own friends. Usually they carrying out activity like watching television, gonna beach, or picnic within the park. They actually doing same every week. Do you feel it? Do you want to something different to fill your personal free time/ holiday? Could possibly be reading a book might be option to fill your free time/ holiday. The first thing that you ask may be what kinds of e-book that you should read. If you want to attempt look for book, may be the publication untitled Alan Turing's Electronic Brain: The Struggle to Build the ACE, the World's Fastest Computer can be very good book to read. May be it is usually best activity to you.
