# New Features in Contract Law

## New Features in Contract Law

Economic change, globalization, and harmonization of European law have brought new challenges to contract law. The contributions in this volume by prominent legal scholars deal with current trends and perspectives in European and international contract law and their impact on the various domestic legal systems. The compendium provides an analysis of new developments in formation of contract, performance and remedies, consumer contract law, and the particularly controversial area of anti-discrimination law. Experts in these fields examine the underlying legal principles and problems arising in legal practice in common law and civil law. The essays - written in English, German, and French - are the product of a series of lectures held in 2006 at the Center for European Private Law (CEP) at the University of Münster, Germany.
