As a scholar, I exactly feel bored to help reading. If their teacher expected them to go to the library or make a summary for some e-book, they are complained. Just very little students that have reading's soul or really their

leisure activity. They just do what the instructor want, like asked to the library. They go to there but nothing reading really. Any students feel that reading through is not important, boring and can't see colorful images on there. Yeah, it is for being complicated. Book is very important in your case.
