## Judicial Review and Bureaucratic Impact: International and Interdisciplinary Perspectives (Cambridge Studies in Law and Society)

How effective are the courts in controlling bureaucracies? What impact does judicial review have on the agencies which are targeted by its rulings? For the first time, this book brings together the insights of two intellectual disciplines which have hitherto explored these questions separately: political science and law/socio-legal studies. Leading international scholars from both fields present new research which focuses on the relationship between judicial review and bureaucratic behaviour. Individual contributors discuss fundamental conceptual and methodological issues, in addition to presenting a number of empirical case studies from various parts of the world: the United States, Canada, Australia, Israel, and the United Kingdom. This volume constitutes a landmark text offering an international, interdisciplinary and empirical perspective on judicial review's impact on bureaucracies. It will significantly advance the research agenda concerning judicial review and its relationship to social change.
