NHibernate 2 Beginner's Guide Aaron Cure

This is a beginner's guide to NHibernate that starts from ground zero. Successive chapters build upon earlier concepts, while the sample code presents various ways to accomplish typical data access tasks. Within a few chapters you have a running application using NHibernate to retrieve and store data. We examine all of the topics required to get a functional data access layer implemented by writing the least amount of code possible, presenting options along the way to handle particular edge cases or situations as they arise. When you have completed the various exercises you will have running data-bound desktop and web applications, as well as an understanding of how to implement NHibernate in your own applications. This book is for new and seasoned developers of .NET web or desktop applications who want a better way to access database data. It is a basic introduction to NHibernate, with enough information to get a solid foundation in using NHibernate. Some advanced concepts are presented where appropriate to enhance functionality or in situations where they are commonly used.

From reader reviews:

Paul McKinney:

Why don't make it to become your habit? Right now, try to prepare your time to do the important work, like looking for your favorite guide and reading a book. Beside you can solve your problem; you can add your knowledge by the reserve entitled NHibernate 2 Beginner's Guide. Try to the actual book NHibernate 2 Beginner's Guide as your pal. It means that it can to become your friend when you feel alone and beside that course make you smarter than in the past. Yeah, it is very fortunated for you personally. The book makes you a lot more confidence because you can know every thing by the book. So , we need to make new experience as well as knowledge with this book.

Stephen Hawkins:

What do you with regards to book? It is not important along with you? Or just adding material when you want something to explain what the one you have problem? How about your free time? Or are you busy man or woman? If you don't have spare time to do others business, it is gives you the sense of being bored faster. And you have spare time? What did you do? Every person has many questions above. They should answer that question since just their can do in which. It said that about reserve. Book is familiar on every person. Yes, it is right. Because start from on pre-school until university need this NHibernate 2 Beginner's Guide to read.

Lyle Morales:

Reading a reserve tends to be new life style in this particular era globalization. With reading through you can get a lot of information that could give you benefit in your life. Having book everyone in this world may share their idea. Books can also inspire a lot of people. Many author can inspire all their reader with their story or their experience. Not only the storyline that share in the publications. But also they write about the information about something that you need example. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors on earth always try to improve their expertise in writing, they also doing some exploration before they write on their book. One of them is this NHibernate 2 Beginner's Guide.

Maurice Conner:

This NHibernate 2 Beginner's Guide is great publication for you because the content which can be full of information for you who also always deal with world and get to make decision every minute. This kind of book reveal it facts accurately using great plan word or we can say no rambling sentences inside it. So if you are read the idea hurriedly you can have whole information in it. Doesn't mean it only provides straight forward sentences but difficult core information with beautiful delivering sentences. Having NHibernate 2 Beginner's Guide in your hand like having the world in your arm, information in it is not ridiculous just one. We can say that no publication that offer you world inside ten or fifteen small right but this reserve already do that. So , this really is good reading book. Heya Mr. and Mrs. busy do you still doubt that will?
