Wood Technology and Processes, Student Edition McGraw-Hill, John Feirer

Wood Technology & Processes is a comprehensive woodworking text for high school that introduces basic and advanced woodworking operations with clear instructions and illustrations. Besides the “Woodworker’s Handbook,” and a four-color presentation of the tools and materials of the woodworker, this edition has a new section on “Advanced Woodworking Techniques,” including clamping techniques, router table techniques, face framing, use of the miniature lathe, and step-by-step instructions on how to make various kinds of joints. New projects with detailed step-by-step procedures have been added to the *Better Homes and Gardens*® *WOOD*® Magazine Projects at the back of the book.
