*Thomas P. Simon, Robert Wallus*

## **Reproductive Biology and Early Life History of Fishes in the Ohio River Drainage: Ictaluridae - Catfish and Madtoms, Volume 3** Thomas P. Simon, Robert Wallus

This series fills immense gaps in knowledge of issues related to early life development of fishes in the Ohio basin. Volume I includes families Acipenseridae to Esocidae, Volume II includes the Catostomidae, while Volume III addresses the developmental and morphological issues of catfish and madtoms. This volume describes the characteristics of the Ictaluridae family, and provides a detailed pictorial guide. Subtopics within each species description includes range, distribution, occurrence, spawning, eggs, development, ecology of early life phases, and more. This book serves as both a ready guide to help identify individual larval fish, and as a reference for environmental managers concerned with the overall health of the ecosystem that they are monitoring.
