# Steampunk Alphabet

## Steampunk Alphabet

Every family needs an alphabet book. That's a given. Nat Iwata has been doing steampunk art for several years in the video game industry, and now he has illustrated a visually compelling, fun-for-all-ages Steampunk Alphabet book that is approachable both to fans and those unfamiliar with Steampunk. In light of that, while all of the illustrations are total Steampunk, the opening 'letter sentence' for each page is a familiar word. For example "A is for Apple." The idea of taking everyday ordinary things and reimagining them as Steampunk is sure to be a crowd pleaser, and especially appeal to all of the hipster parents. The second part of each page is a description of the object as set in the Steampunk world. This portion will be more enjoyable to older kids and adults to enjoy, while the book could be read entirely with just the 'letter sentences' for younger readers.
