The Orb Project

Klaus Heinemann, Miceal Ledwith

The Orb Project Klaus Heinemann, Miceal Ledwith

After literally stumbling into orbs appearing as bright as light bulbs in photographs he was taking at a spiritual retreat, Dr. Klaus Heinemann immediately sensed that he was onto something profound. There was no choice but to convince himself that his notion was on solid grounds. Heinemann looked at thousands of pictures he had taken earlier, and thousands more would be taken to test the hypothesis that these light circles are nothing less than emanations from Spirit beings.

Dr. Míceál Ledwith had a similar experience after the orb phenomenon was first made known to him through the teachings of Ramtha. He began an intense and systematic study of orbs in all sort of situations, day and night, and in all sorts of atmospheric conditions, in order to discover all he could about their nature, the situations in which their presence could be most easily detected, and what implications they might have for our understanding of our own place in the cosmos. To date, he has amassed a collection of well over 100,000 images.

In *The Orb Project*, Ledwith and Heinemann present their fascinating discoveries, along with practical tips that amateur digital photographers can use to photograph orbs and properly distinguish them from "false" orbs that are really dust or water particles. They offer guidelines on deciphering the orbs' various patterns, features, and characteristics, based on their extensive research.

As Dr. Ledwith points out, once you develop a keen and sustained interest in photographing spirit entities, some quite interesting things begin to happen: the brain stops censoring these images, and you can begin to see with orbs with the naked eye -- in more color and detail than is visible to even a digital camera.

Ledwith and Heinemann also explore communication with orbs and what their existence means to our lives. The implications of a realization that we are "surrounded by a cloud of witnesses" are enormous and incredibly hopeful for the world at large.

From reader reviews:

Michael Kimbrell:

Do you have favorite book? When you have, what is your favorite's book? Reserve is very important thing for us to find out everything in the world. Each guide has different aim or even goal; it means that book has different type. Some people really feel enjoy to spend their time and energy to read a book. These are reading whatever they get because their hobby is actually reading a book. Consider the person who don't like reading through a book? Sometime, man or woman feel need book after they found difficult problem as well as exercise. Well, probably you should have this The Orb Project.

Kristi Jones:

Information is provisions for folks to get better life, information currently can get by anyone at everywhere. The information can be a know-how or any news even a huge concern. What people must be consider if those information which is from the former life are challenging to be find than now could be taking seriously which one works to believe or which one the resource are convinced. If you obtain the unstable resource then you get it as your main information it will have huge disadvantage for you. All of those possibilities will not happen with you if you take The Orb Project as your daily resource information.

Judith Craig:

Reading can called imagination hangout, why? Because when you find yourself reading a book particularly book entitled The Orb Project the mind will drift away trough every dimension, wandering in each and every aspect that maybe unknown for but surely can become your mind friends. Imaging each and every word written in a guide then become one application form conclusion and explanation this maybe you never get previous to. The The Orb Project giving you one more experience more than blown away your head but also giving you useful facts for your better life in this era. So now let us show you the relaxing pattern the following is your body and mind will likely be pleased when you are finished reading it, like winning an activity. Do you want to try this extraordinary spending spare time activity?

Wesley Binns:

Reading a e-book make you to get more knowledge from that. You can take knowledge and information from your book. Book is composed or printed or created from each source that filled update of news. On this modern era like right now, many ways to get information are available for you. From media social just like newspaper, magazines, science reserve, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Ready to spend your spare time to spread out your book? Or just looking for the The Orb Project when you desired it?
