Green Growth, Smart Growth: A New Approach to Economics, Innovation and the Environment (Anthem Environment and Sustainability) Ralf Fücks, Anthony Giddens, Rachel Harland

We find ourselves at a crossroads between environmental disaster and a new industrial revolution: a shift from the ruthless exploitation of nature toward cooperation with it. Decoupling economic growth from environmental consumption is an ambitious goal, but also an achievable one. Green Growth, Smart Growth outlines a way forward in this great transformation, and does so in the conviction that the dangers posed by climate change can be overcome through a new approach to economics, innovation and proactive policymaking.
