El Río, la Industria y la Pujanza Obrera: Barranquilla - Colombia Sur América (Spanish Edition)

Benjamín Risso Díaz

En este libro se recoge el nacimiento y desarrollo de la Industria Barranquillera, mostrando al mismo tiempo el surgimiento de las clases promotoras de la historia - burguesía y proletariado - y con ellas el enfrentamiento político e ideológico, dando origen a las organizaciones propias de su clase social, con enfrentamientos y alianzas por mejorar no solo sus salarios y demás prestaciones sociales sino el desarrollo Industrial del país y lo más importante la conservación, protección y mantenimiento del río Magdalena que hace posible la comunicación con 11 departamentos en el país. Presionando siempre la búsqueda de la legalización de los derechos fundamentales de su clase y arrancándole a la clase contraria la legislación que reglamentó el Derecho al trabajo en la Constitución Nacional y en el Código Sustantivo del Trabajo. Visto este desarrollo no solamente en el plano Barranquillero sino a nivel regional, nacional e internacional, recogiendo la experiencia de los demás obreros, y sin olvidar la influencia del río y el mar para la exportación e importación de productos e ideas, fue lo que hizo que Barranquilla se ganara el honroso título de “Puerta de Oro de Colombia”
